A MILLION IN MONEY

To be Distributed Among the Johnstown Flood Sufferers.

THE PLAN WHICH WAS ADOPTED.

Governor Foraker at the Reunion of the Sherman Brigade.

ALL THE NEWS FROM NEARBY TOWNS

ISPECIAL TELEGRAM TO THE DISPATCH. JOHNSTOWN, August 15 .- After conference with the local committees, a report was agreed upon by the members of the State Commission which are now here, and it will he presented to the full commission at their next meeting. The report provides for the distribution, which from data at hand will amount to \$1,149,000, in addition to the \$500,000 previously appropriated. Those in classes 1, 2 and 3 will be paid off in full, receiving respectively \$1,000, \$900 and \$500 each. This will require \$435,000. Classes 4, 5 and 6 are to receive 30, 22 and 15 per cent each respectively, and the sums paid to each will be \$458,364, \$550,000 and \$206,250.

This compilation is made from the rating of the Board of Inquiry.

Before the losses were sworn to the amounts in some of the classes will be changed considerably, as many individuals will be re-rated. It will be noticed that all this will not exhaust the relief fund within about \$60,000, as there is about \$160,000 on

The passenger receipts at Johnstown sta-tion were two and a half times greater this year than last, while the freight receipts were a few thousand dollars less than last year. The general business was largely increased, but the decrease in freights is due to the fact that the Gautier mills are not running this year. The Board of In-quiry to-day moved their office to the Municipal building and a large force of clerks will be employed to get the papers in shape for the final distribution. Quite a number of valuables have been turned over to-day by persons who had picked them up shortly after the flood. A systematic effort is being made to hunt things up, and much valuable property is being discovered.

TOO MANY TRAMPS.

A Perfect Epidemic of Thlevery in the Neighborhood of Franklin. ISPECIAL TELEGRAM TO THE DISPATCH A

FRANKLIN, August 15.-Tramps, horse thieves and burglars are getting in their work in this section of the State. This morning the safe in the ticket office of the Erie depot was blown open and \$75 in cash taken. The baggage room was also visited, and trunks and valises ransacked and their contents stolen. Two horses were stolen from a farmer named Neely in Cherry Tree last night, but the thieves were so closely pursued that they abandoned the horses and

escaped.

Tramps raided a number of freight cars
standing on the Western, New York and
Pennsylvania tracks at Irvineton yesterday,
and carried off and destroyed several hundred dollars' worth of property. Detective Wilmot succeeded in landing a number of them in jail. Several farm houses have also been robbed on the outskirts of the city, and scarcely a night passes without some horses being stolen and houses robbed. This vicinity is evidently the headquarters of a large gang of all-round thieves.

Major McLaughlin, early in the war and joined the regiment at Washington. It is the first time the regiment has held a reunion at Butler, and the members of H Company, together with the citizens, are doing all in their power to make the boys have a good time. Before leaving the depot canes were, with his usual liberality to the old soldiers, presented to each of the members with the following inscription: "One Hundred and Second Regiment. From Gusky's."

General T. A. Rowley, ex-Mayor Lyon, Captain J. D. McFarland, Captain S. L. Fullwood, Captain James Bishop, Captain Andrew Large, Captain Sam Duvall, who is the President of the organization; Captain W. W. Judge McCandless delivered an eloquent address of welcome in front of the Court House at the fair grounds. Hon. A. L. Hazen addressed the old veterans.

The campfire at the opera house was in-deed an old fashioned love feast. Colonel Danks, of Pittsburg, sang a song the chorus of which, "There Will be no Sorrow There"

was sung by the veterans. It was full of

bathos.

Miss Ayers recited a poem. Captain Fleeger culogized the regiments and tendered a hearty welcome to them. He was answered by Captain Duvall, of Pittsburg. Comrade Rev. W. O. Campbell paid a touching tribute to the absent comrades.

There were other interesting speeches and beautiful song, rounding out a day of pleasure that will not soon be forgotten by the old heroes.

(SPECIAL TELEGRAM TO THE DISPATCH.) CANTON, August 15 .- It was a great day in Canton on account of Governor Foraker and the reunion of the great Sherman Brigade at Myers' Lake. Excursionists by the carloads from Wooster, Cleve-land, Massillon, Mansfield, Akron, Alliland, Massillon, Mansfield, Akron, Alliance and other points crowded in, and 5,000 people gathered in the city of tents at picturesque Lakeview and greeted the Governor with cheers, music and cannon salutes, as he reached the expectant gathering belated by a railroad accident on the Fort Wayne road near Wooster, but all the more welcome. Senator Conrad and Charles Ricks drove the Gubernatorial party from Massillon, and he arrived in time to make one of his characteristic speeches.

Senator Sherman sent his regrets from Paris. "Old Tecumseh" was sorry he could not come from New York, and General Wood wrote from London that he would liked to have attended. During the course of his remarks Governor Foraker called

A GIGANTIC RAINFALL

Was Undoubtedly the Cause of the Recent Disastrous Floods.

AN AVERAGE OF RIGHT INCHES

Fell Over an Area of More Than 12,000 Square Miles in the State.

NEARLY 7,000,000,000 TORS IN WEIGHT

PERCIAL TELEGRAN TO THE DISPATCH. HARRISBURG, August 15.—Secretary of Internal Affairs Stewart has issued a report relative to the recent floods in Pennsylvania caused by the rainfall of May 30 to June 1. It was, says the report, a gigantic rainfall amounting to an average of eight inches in depth of water, falling on an area of more than 12,000 square miles, and covering the mountain plateau and its eastern declivities from Johnstown to Harrisburg, and extending northward from Somerset to McKean and Tioga counties.

This area of rainfall was oval in form but broader toward the north branch of the Susquehanna. Around this central body of flooded country the quantity fell off rapidly to six, four, and two inches, although the highlands in Maryland and Virginia, at the south, and in northeast Pennsylvania and southern New York had flooded rains of three to five inches in depth.

LITTLE RAINFALL IN PITTSBURG. At Pittsburg there was only one and a half inches, although in Ohio, Michigan and Indiana, nearly three inches of rain fell on the 29th and 30th of May. There were flooding rains at the same time in Kentucky, Tennessee and West Virginia.

In the southern counties of this State the rainfall was light, from half an inch to an inch only, although the southeast gale was more violent there, and it swept Delaware and South Jersey with great lorce on May 31

May 31.

The appalling losses of life at Johnstown, of course, could not have resulted from any storm, however great the rainfall, yet it was apparent at Philadelphia on the afternoon of May 80, and during all the following day, that the great heat and violent gale indicated a heavy rainfall in the interior of the State.

Taking the entire area visited by heavy and general rainfall May 28 to June 1, there is NO RECORDED EXPERIENCE

approaching it in magnitude. In Eastern Kansas and over much of Missouri it reached an average of 3 inches. In Illinois and all the States intervening to Pennsylva-nia, the quantity varied from 2 to 4 inches; the observers of the several States' weather systems reporting very fully. All their reports have been received and consulted, in

reports have been received and consulted, in writing and paper.

The States southward, including Tennessee, had general and heavy rains nearly equal to those just referred to. And, while in the Ohio Valley and vicinity of Pittsburg there was less rain, the first mountainous elevations eastward were deluged with rain, the southern border having several destructive local storms or cyclones, such as are characteristic of the southern border of an area of general disturbance.

WEIGHT OF THE WATER.

WEIGHT OF THE WATER. The vast weight of water falling is shown by a calculation based on the weight of a cubic foot, 35 feet being a ton. In the surface of a source mile there would be .66,377 tons for an inch in depth, 531,016 tons for a depth of eight mebes. The quantity falling on 12,000 square miles, at this rate, is 6,732,246,000 tons. The force exercised by vast bodies of water in motion is irresistible. In concluding, the report save:

bodies of water in motion is irresistible. In concluding, the report says:

"In all respects the conditions were the most remarkable and peculiar of, those known to attend a general rainfall, and the vast masses of water thrown down over the surface of several States other than Pennsylvania, only add to the difficulty of explaining the origin of the storm, or the source from which so great a body of water

THERE IS QUITE A DIFFERENCE. When old, shelf-worn, OUT-OF-STYLE GOODS are put on sale to make room for something new and desirable, although they may be called bargains, they are dear at any price. On the other hand, when a mammoth stock of new, stylish goods are put on sale to quickly close out business, you may expect real bargains. The latter is our case, all must be sold without reserve. Our stock comprises everything in the line of Lamps, Glass, China and Queensware, Gas Fixtures, Bronzes, Clocks, Articles for Use and Ornament, Birthday and Wedding Presents. It is impossible to name everything. Call and see them, and see our prices and you will be satisfied that we are telling the truth. Our Cut Glassware department
